

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A connector comprising:

a single terminal fitting having a bent portion, bent substantially in a right angle, the terminal comprising a first leg and a second leg that join each other at the bent portion; and

an outer covering configured to cover a part of the terminal fitting, the part including the bent portion,

wherein the outer covering comprises:

an outer covering body made of resin; and

a reinforcement member disposed at a position where restricting a deformation of the terminal fitting caused by an injection pressure acting thereon in molding the outer covering body, wherein

the reinforcement member is disposed at a position adjacent to the bent portion, and

the reinforcement member is disposed at a position of an inner side of the bending direction of the bent portion, and abuts both the first leg and the second leg.

2-4. (Canceled)

5. (Original) The connector as claimed in claim 1, wherein the reinforcement member is made of the same material as that of the outer covering body.

6. (Currently Amended) The connector as claimed in claim 1, further ~~comprises~~ comprising a sealing member configured to seal between the outer covering body and the reinforcement member.

7. (Original) The connector as claimed in claim 1, wherein the outer covering body and the reinforcement member are adhered with an adhesive agent.

8. (Original) The connector as claimed in claim 1, wherein the outer covering is configured to be in close contact with the surface of the terminal fitting.

9-12. (Canceled)
